FOR IMMEDIATE RELEASE

## **GREEN MOUNTAIN INN PLANS MAJOR ROOM RENOVATION Large scale project to upgrade substantial number of Main Inn rooms**

A major renovation project slated to begin this spring at Green Mountain Inn will completely refurbish nearly a quarter of the historic hotel's Main Inn room inventory.

Twelve of the hotel's second floor rooms within the property's central Inn building will undergo a substantial revitalization. Plans call for complete remodeling of bathrooms, air conditioning system improvements, floor plan readjustments to maximize space, installation of new high grade noise-dampening windows and the addition of new large screen plasma TVs.

Says Innkeeper Patti Clark, "Our goal has always been to offer comfortable, inviting accommodations which provide our guests real value for their travel dollars. Over the years we have continually re-invested in our facilities to update, renew and enhance our offerings. Every upgrade project – such as this one - has been undertaken with a commitment to preserving the hotel's unique character and charm so that the Inn remains a destination of choice for our loyal customers.

"We're always looking for feedback from our guests so we're able to better understand and meet their needs in providing the lodging and service choices they're seeking. We listened when guests told us they're looking for a more consistent room experience throughout the Inn. And that's exactly what this project will accomplish."

The Inn has also recently rejuvenated its massage facility which, in addition to treatment rooms, includes an extensive sauna and adjoining Jacuzzi area. The Health Club will have a wood floor in the workout area and addition of an arc-trainer machine to our cardio equipment. Massage services, available to the public as well as to the hotel's guests, have also been expanded to feature an array of treatments ranging from sports to reflexology, deep tissue options and LaStone.

In the 25 years since the Inn has been owned by the Gameroff Family Trust, every portion of the Inn's property has been refurbished and several extensive construction projects and additions completed. Past enhancements projects have included the Annex building renovation and Clubhouse, expansion of the Old Depot Street building, construction of the Sanborn House, Mill House, Mansfield House rooms and luxury suites as well as the Depot Street Townhouses. The Inn offers 108 various room, suites and apartment accommodations.

The Inn was recently ranked as the #1 Hotel in Stowe by TripAdvisor.com and was listed as a "smart pick" by New England Travel's *Best of New England 2009*.
